PROPOSED COURTHOUSE

PROPOSED JAIL

Historic Jail To Stand As Landmark?
Voters will decide Saturday if they want a new, modern county jail (pictured above) in the special bond election. The proposed \$120,000 one-story jail would be constructed at a new site if the issue is approved. It would be of similar

design to the proposed courthouse expansion and remodeling drawings. The 75 year old historic and ornate jail, known widely for its many jail breaks, would stand as a landmark of Milam County.

Courthouse, Present-Future?

Pictured at left is the proposed Milam County Courthouse architects drawing of what can be done, if the bond issue is approved Saturday, to update the present 73 year old plant (pictured below). The proposal is for a contemporary designed structure finished in face brick and stone trim with windows of aluminum sash and insulated panels. The expansions on the north and south sides would give added room to alleviate crowded conditions existing in the present structure.

2 Proposals Await Voters

Milam County voters will go to the polls Saturday, August 7, to consider two bond issues, one for a new \$150,000 county jail and another for a \$500,000 county courthouse remodeling plan.

The election, called for by the County Commissioner's Court, will have two propositions for the voters:

1. The issuance of courthouse bonds and the levying of the tax in payment thereof.
2. The issuance of jail building bonds and the levying of the tax in payment thereof.

Polling places will be open at

the 33 Milam County precinct boxes from 7 a.m. until 7 p.m. Saturday.

Voting in Cameron will be Precinct 1, South Cameron, at Courthouse with D. B. Gunn presiding judge; Precinct 2, North Cameron, Yoe High Gym with F. B. Darnie judge.

Precinct 15, East Rockdale, will vote at American Legion Hall and Precinct 16, Rockdale, at junior high school gym.

Other precinct voting places are: Precinct 3, Salem School; 4, Ad Hall School; 5, Elm Ridge School; 6, Maysfield school; 7, Jones Prairie Store; 8, Baileyville Country Club; 9, Branchville, Bailey's Store; 10, Clarkson school; 11, Milam, American Legion Hall; 12, Gause School; 13, Hanover School; 14, Marlow school; 18, Rice school; 19, Minerva Community Center; 20, Gay Hill school.

Also, 23, Sand Grove school; 26, Davilla school; 29, Sharp school; 30, San Gabriel school; 31, Crush school; 32, Buckholts school; 34, Burlington school; 36, Walkers Creek school; 35, Ben Arnold school; 37, Mark school; 38, Yarrington school; 40, Conoley school; 42, Thorndale school; 49, Friendship school; 59, Salty school.

In calling for the election, officials voiced major consideration on the space problem and the ages of the two county structures. (see separate stories this page)

What It Costs

With the present number of tax payers in Milam County, the \$407,670 remodeled courthouse and \$120,000 new jail will take 25 years to be paid for, officials have announced.

The proposition will raise the present assessed valuations by 15 percent.

WHO CAN VOTE

In order for a Milam County resident to cast his ballot August 7 in the bond election for the new county jail and remodeled and enlarged courthouse, he must be a qualified voter.

To be a qualified voter, the resident must have personal or real property listed on the tax roll and must also have a paid poll tax, officials said.

To be exempt from paying poll tax, the person must have reached 60 years of age before January 1, 1964. However, the voter must still have property on the tax roll.

Plant Needs In Jail Proposal

Countians will decide Saturday on the proposed plans for the construction of a new \$120,000 Milam County Jail.

If the bond proposal is accepted by the voters, the 75 year old jail will be retained as a landmark, and the new one will be built on a site yet to be designated.

Architect's plans call for a one-story level structure with 5,318 square feet of floor space.

It will have separate cells, facilities for men, women, juvenile boys and juvenile girls.

Plans call for the jail area to have heat and ventilation. Officials said there is no air-conditioning planned for the jail cell area. Sheriff's living quarters will be complete with air-conditioning.

Facilities included in the plans call for an entrance lobby, office, first aid room, prisoner receiving room, laundry, kitchen, sheriff's living quarters and a mechanical room.

The proposal calls for space for

Expansion Goal Is Space

Milam County's 73 year old courthouse will take on a completely new look if the proposed plans for remodeling and expansion are approved at the bond vote Saturday.

Estimated cost of construction is \$407,670 and plans call for a contemporary structure with adequate space and facilities.

Architect work was done by Dawsey-Joiner-Colburn and King, Houston architects and engineers.

The architects surveyed each office in the courthouse before drawing up the proposed courthouse project.

Plans call for first, second and third floor additions on the north and south sides.

PROVIDE SPACE

The additions will not only alleviate crowded office space, but also provide facilities to house new heating and air-conditioning equipment.

The proposed expansion would give 11,490 additional square feet to the courthouse for a total of 30,081 square feet of floor space.

The exterior will be in face brick and stone trim of a contemporary design.

New entrances with protective canopies will be on the north and west sides of the building. All windows will be replaced with aluminum sash and insulated panels.

The roof will be replaced with a new built-up gravel roof and new drainage system installed.

Interior plans call for new plumbing, lighting and new resilient tile flooring throughout the offices and work areas. New acoustical tile ceilings will be installed on the first, second and third floors, adequate restroom facilities, walls and ceilings replastered and stairways repaired and refinished. An elevator is planned to serve all floors.

Electric wiring and plumbing are, in the most part, the original facilities. Mortar between the bricks is worn and deteriorated. Heating of the jail quarters is still being done by the original stove and there are no shower facilities.

After a complete study by experts on the jail and facilities, county officials were advised that a new jail structure was the most feasible plan for overcoming these defects.

All offices in the basement will be moved to floors above, relegating the area to records and general storage.

The first floor will consist of

the Sheriff's Department, Justice of the Peace, County Clerk's Department, Tax Collector and Assessor, public restrooms and mechanical space.

Second floor would house the District Judge's office, District Clerk, County Attorney, Highway Patrol, law library, court reporter's office, jury room and restroom facilities, witness room, hold cell, district court room, public restroom facilities and mechanical space.

On the third floor will be the county auditor and treasurer's office, school superintendent, hold-over dormitories with bath and restroom facilities for men and women jurors, county judge, commissioners' court with security office and mechanical room.

Desegregation Plan

Common School

Districts Set

A plan for the desegregation of the Common School Districts of Milam County, including Maysfield, Branchville and Burlington, has been announced by County School Supt. H. D. Maxwell.

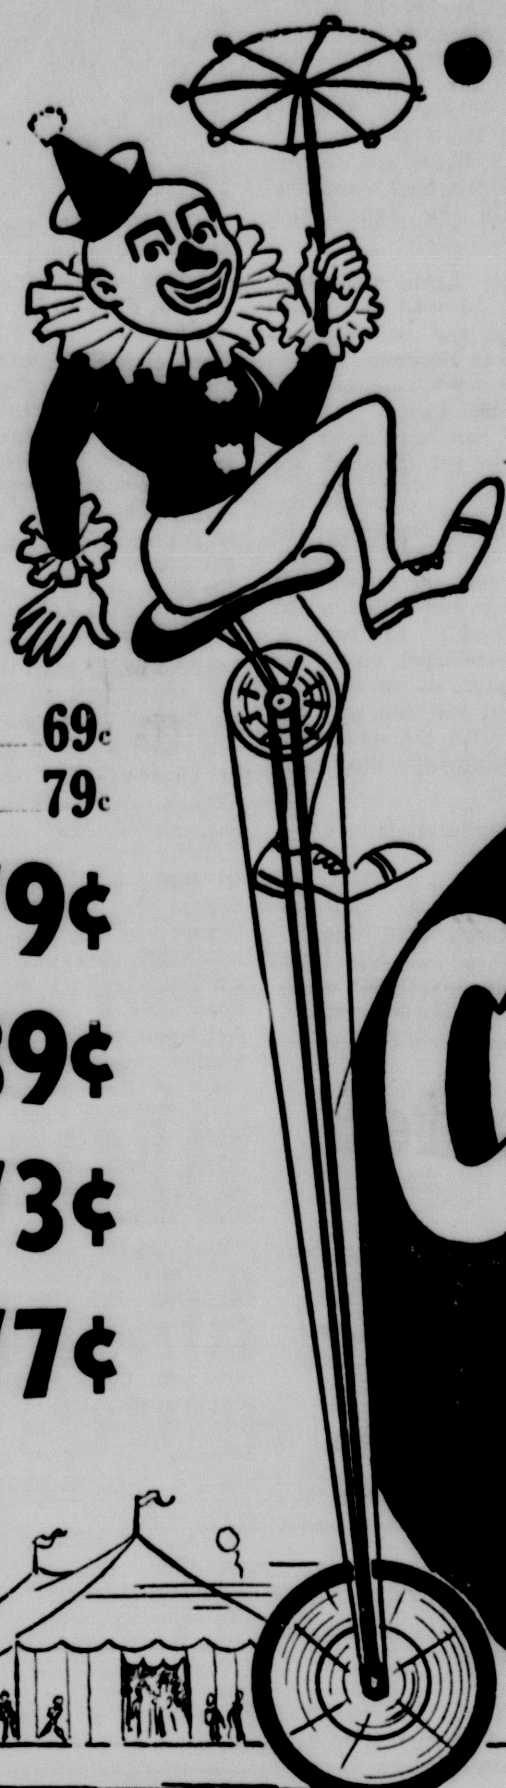

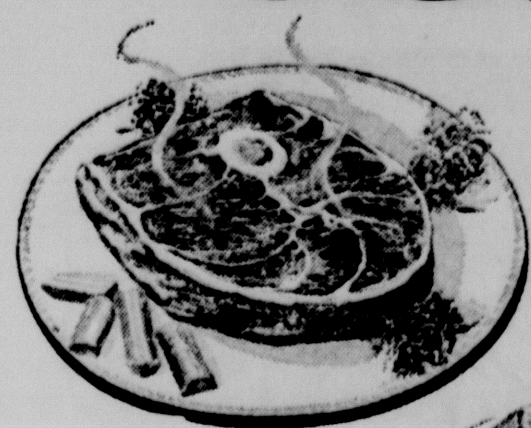

The desegregation plans state that the school system has been put into effect so that the schools will operate in all respects without regard to race, color, or national origin.

Students will register on a Choice of School form. Registration will be held from August 30 through September 3 from 8:30 a.m. until 3:30 p.m. at the various schools.

There are 80 small islands in the Aleutian chain.

GOSPEL MEETING

Don H. Gibson, minister for the Church of Christ in Cameron, will preach in a gospel meeting at the Sandy Creek Church of Christ on the Milano-Rockdale Highway, August 9 through 18. Services will be held at 8 p.m. each evening.

Test Your Dry Fly

Ever have bass ignore your fly, when it looks to you exactly like the live flies you see all around?

Well, the bass has sharper eyes than you and he can see the difference.

Make your own comparison by casting the imitation among the drifting "naturals" and observe how the colors and patterns differ from the living insects.

Eighteen Lettermen Return

Yoe High Coach Kirk will have 18 returning lettermen and a host of younger gridmen with which he hopes to make the pre-season prediction of the 10th ranking in Class 2A come true.

Ninety boys have signed up for high school football for the 1965-66 year and will undergo physical examinations August 13 and then hit the practice field August 16.

Among the lettermen are five starters who will be the backbone to the Yoemen team. Termined the four "Ms" are quarterback Mack McKinney, fullback Mike (Ball) McDaniel, end Doug McFarland, halfback Don Manley, with tackle James Hosh.

Senior lettermen are Kenneth Anzell, tackle, Newton Burnett, linebacker and end; tackle James Hosh, halfback James Hoskins, guard Frankie Mikulec, guard Joe Paul Mueck, end James Vogel-sanz, tackle Eugene Wallace, McDaniel, McFarland and McKinney. Senior squadmen coming up from the B-team are halfback Forrest Green, guard Jimmy Kopriva, halfback Leo Michalka, guard Dennis Rose, linebacker Ray Urban and halfback Don Manley.

"Some of these 90 boys who have signed up will decide they don't want to pay the price to be football players and we will probably have 75 or 80 when the season gets underway," Coach Kirk said.

He still hopes to have gridiron talent that will take the team up to the rating given them by the Texas football magazine. They were rated 10th in the state after being district 17-AA champions last year.

In district 17-AA competition Hearne has been selected as second contenders, Rockdale third,

Navasota fourth and Caldwell fifth.

PRE-SEASON EVENTS
The Yoe High athletes will gather for the first time August 9 when they are hosted at the annual Booster Club's Ice Cream party. The event will kick-off the 1965 season as it gets underway at 7:30 p.m. at the City Park.

Coach Kirk said all high school players will undergo physical examinations at Yoe gymnasium at 6:20 p.m. August 13.

Two-day workouts will begin for all sophomores, juniors and seniors on August 16 at 8 a.m. and 7 p.m. Freshmen gridsters will practice at 10:30 a.m.

August 20 is Press and Picture day for all high school teams and August 21 will be Introduction Night.

A scrimmage game with Hillsboro is being planned and action will get underway September 3 when they meet Rosebud.

Unhooking Your Fish

How many fish have been lost while trying to get them off the hook?

Even though you finally get the barb out of the critter's mouth, you pay for the accomplishment with fin wounds and slimy hands.

Take the trouble to sew a piece of fine sandpaper across the fingers and palm of an old leather glove, and you can grip the flapping fish with the sandpaper hand while removing the hook with the other.

This is especially effective when handling catfish.

Alfalfa, native to Asia, did not reach this country until 1850.

MURRAY GO ROUND

By Tom Murray

MUCH OSPOITS:
Biggest comedown in one year would have to be that experienced by the Rice Owls. You realize, of course, that last summer the boys from the Institute were chosen by Texas Football to win the SWC football championship. This time around the experts say the Blue will finish last... Pushing the Owls for comedown honors might be Abe Martin, the TCU coach whose Ft. Worth television show was dropped in favor of the Darrell Royal Show, origin Austin... The University of Texas belongs to folks in Ft. Worth, too, it seems.

Tommy Nobis, the All-American Texas linebacker, has reached a point in publicity where there is little more to say... Opponents usually feel the quiet Redhead needs no one speaking for him... How would you like having both Spring Branch's Chris Gilbert and La Marque Bull Norman Bulach in the same backfield?... Thursday South High School all-star coach Bob Barfield will start the 175 pound Gilbert at tailback with 205 pound Bulach at fullback... We've seen both and Gilbert reminds you of Oregon and the Dallas Cowboys' Mel Renfro... Bulach looks as good as Ray Ponge did at his best on that 1961 University of Texas crew.

Is this going to be University of Houston's big football year? Certain sports writers say yes. But, haven't they said it before? ... The Aggies, so they say, are on the way to "another Bear Bryant era"... Well, let's see, Bryant won one SWC title in four tries, one of four from bitter rival Texas and left mouthing about how hard it was to recruit at Aggieland... Two youngsters who battled nose-to-nose for three years at Baytown and Freeport- Butch Hubbard and Frank Horak- could be U. T.'s ends of the future. Both looked good in Darrell Royal's spring training.

AND MORE:
Abe Martin gets more excited every time he considers the 5 - 3, 205-pound, Bulach. They say of Abe thinks the La Marque kid who does 9.7 in the 100, can be better than Jim Swink, the 1955-56 All-America and Jack Spikes together... There will be an eventful Thanksgiving Dinner in once Col-

On Right To Work,

Cotton Legislation

Dear Friends:

Most of this week has been devoted to the repeal of Sec. 14 (b) of the Taft-Hartley Act. In effect, this meant that the House voted by an 18 vote majority to wipe out our Texas "Right to Work" law. In the past each State has had the right to decide for itself whether it wanted to allow labor contracts which required all employees to pay union dues. I have thought that it was carrying the power of the Central government too far to let it strike down the States' laws on this subject.

Most unions have contended that they should be allowed to contract to require all workers to pay union dues. They have felt that they render all workers a service and that all should pay for it. It seems to me that those who do not consider this representation to be a "service" should not be required to pay for it. I think that each individual should have the right to make his own decision, whether right or wrong. Indeed, the great labor leader, Samuel Gompers once said: "There may be here and there a worker who for certain reasons, unexplainable to us, does not join a union of labor. This is his right-no lasting gain has ever come from compulsion."

In addition to the principle involved, is the question of practical effect in Texas. Actually, both employment and wages have been

increasing at a faster rate in the 19 Right to Work States than in the rest of the country. I don't like to disturb a situation which appears to have given us more jobs at higher wages without any compulsion. I, therefore, voted against the change.

This labor bill has brought us hundreds of letters on both sides. We have tried to answer them all but many people do not give their address. Others put the address only on the envelope. We cannot always keep the envelope with your letter. Another group likes to print only the wri- address-or just "New York City" or "Dallas". Unfortunately, no matter how well known you are, the Post Office is not going to waste time looking up your street. The result-if we are to give you a reply please put your name and full address on your letter itself.

We are getting a lot of letters which indicate that many cotton growers are misinformed about the cotton section of the new

Farm Bill. Personally, I would be glad to see us go a little slower in our efforts to reduce production, but we must all realize

that not more than one Congressman out of five or six has any interest in cotton other than to see our surplus stocks reduced.

We have to get the best compromise we can, and the important thing to remember is that no farmer is required to cut his ac-

reage. If he cuts he gets paid-in most cases more than he could clear by planting.

Hay Show Will
Be At T&C Fair

By J. D. Moore

Quality hay will be discussed and a question and answer period held at the county hay show on Friday, August 6, from 2 - 3 p.m., at the Armory in Cameron. This program is a part of the Town & Country Fair sponsored by the Cameron Chamber of Commerce.

Mr. Albert Novosad, specialist from A&M University, will lead the discussion on quality hay. Ed Laywell is chairman for the local show. The public is invited to attend this program.

UNIQUE HAY EXHIBIT

Among the samples of quality hay to be exhibited at the fair is a bale of Prairie Hay that is more than 23 years old. Barbee Barrett of the Marak community brought this hay in for the show. Mr. Barrett says the hay was baled in the North Elm community by himself and two other men operating a mule drawn hay press. The original wire is on the bale of hay and the condition of the hay is good.

GRAIN SORGHUM

Estimates made at the end of July indicate that about fifty per cent of the grain sorghum in Milam County was harvested.

In order to "dry out" some of the leaves, a dessicant has been released which contains a sodium chlorate base. This used at recommended rates will partially kill the plant, allowing the heads and leaves to dry more rapidly. Grain producers may use it to aid in drying weeds and upper sorghum leaves that interfere with or delay harvest.

Most sodium chlorates with metabolite contain 2 lbs. per gallon. Studies conducted by the Experiment Station indicate 2 gallons of magnesium chlorate applied per acre is adequate for satisfactory dessication. In some tests after ten days the moisture content of grain was 10 to 15 percent less than untreated grain sorghum. Again, it will be in special situations that a dessicant for grain sorghum may be suggested.

This information was released by Ben R. Spears, extension agronomist.

Fire Marshal John Eanes Retires; Writes History

JOHN EANES

John Eanes has retired as Cameron's Fire Marshal, but his interest in the Volunteer Fire Department.

He is at present compiling a history of the Cameron Fire Department, and plans to have more time to devote to his writing. However, he is still continuing to serve as Millam County Deputy Tax Assessor-Collector.

With thirty-three years devoted to the Cameron Volunteer Fire Department, Eanes will be able to add many interesting and unusual events to his history series.

Joining the volunteer force when he was 29 years old, he for ten years under the late Mon-serv as assistant fire chief to Thomas. He then served three years as fire chief.

When he got out of the service following World War II, he was appointed fire marshal, a volunteer job that included many detailed and accurate record keeping tasks.

He noted.

During these 33 years Eanes has seen all types of fires and disasters.

It was his duty to go to all the fire, determine their origin, note time and date, estimate loss, amount of insurance, amount of insurance paid and record all this information.

The reports were compiled on monthly reports and sent to the state fire insurance commission at Austin. When there was a death caused by fire, he would also have to make out death reports.

"The record keeping was probably one of the most time consuming duties I had to do," Eanes said.

He also had to inspect public buildings, such as hospitals and rest homes, and all new buildings that were constructed in the fire zone of the city to see that they would abide with the fire ordinance. The fire zone is in the downtown area of Cameron and was set up many years ago.

In order to make area residents aware of the dangers of fire, Eanes appealed to the public time and again concerning weed control and fire hazards.

This plea was to help Cameron and the surrounding area hold down property losses, fire insurance rates and losses of life. Also money for the city. Each time the fire truck leaves the station the expense and wear, and tear on the fire truck is at least \$10, he noted.

All of the interesting, daring and outstanding work done by the Cameron Volunteer Fire Department since it's beginning in the horse and buggy days, will be related in his history series. Now working on page 14, he has promised us an eye view when his years of work are complete.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965.

HOUSE JOINT RESOLUTION NO. 8, proposing an Amendment to Section 24, Article III and Section 17, Article IV of the Constitution of the State of Texas, to allow an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives, and increasing the per diem allowance of Members of the Legislature.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 24 of Article III of the Constitution of the State of Texas be amended to read as follows: "Section 24. Representatives shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. Senators shall receive from the Public Treasury an annual salary of not exceeding Four Thousand, Eight Hundred Dollars (\$4,800) per year. The Lieutenant Governor and the Speaker of the House of Representatives shall receive from the Public Treasury an amount to be fixed by the Legislature. All Members of the Legislature, including the Lieutenant Governor and the Speaker of the House of Representatives, also shall receive from the Public Treasury a per diem of not exceeding Twenty Dollars (\$20) per day for the one hundred and forty (140) days of each Regular Session and for thirty (30) days of each Special Session of the Legislature. No Regular Session shall be of longer duration than one hundred and forty (140) days. This Amend-

ment shall be self-enacting and appropriations heretofore made in the General Appropriations Bill for the biennium ending August 31, 1967, for the salaries of the Lieutenant Governor and Speaker of the House of Representatives shall not be invalid because of the anticipatory nature of the legislation.

Sec. 2. That Section 17 of Article IV of the Constitution of the State of Texas be amended to read as follows: "Section 17. If, during the vacancy in the office of Governor, the Lieutenant Governor should die, resign, refuse to serve, or be removed from office, or be impeached or absent from the State, the President of the Senate, for the time being, shall, in like manner, administer the Government until he shall be succeeded by a Governor or Lieutenant Governor. The Lieutenant Governor shall, while he acts as President of the Senate, receive for his services an annual salary in an amount to be fixed by the Legislature and the same mileage which shall be allowed to the Members of the Senate, and no more; and dur-

ing the time he administers the Government, as Governor, he shall receive in like manner the same compensation which the Governor would have received had he been employed in the duties of his office, and no more. The President, for the time being, of the Senate, shall, during the time he administers the Government, receive in like manner the same compensation, which the Governor would have received had he been employed in the duties of his office."

Sec. 3. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the first Tuesday following the first Monday in November, 1965, at which election all ballots shall have printed thereon the following: "FOR the Constitutional Amendment allowing an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives and allowing a per diem for Members of the Legislature not to exceed Twenty Dollars (\$20) per day for the 140 days of each Regular Session and 30 days of each Special Session."

"AGAINST the Constitutional Amendment allowing an annual salary in an amount to be fixed by the Legislature for the Lieutenant Governor and for the Speaker of the House of Representatives and allowing a per diem for Members of the Legislature not to exceed Twenty Dollars (\$20) per day for the 140 days of each Regular Session and 30 days of each Special Session."

Reasons For Your Support

For the first time in this century, Milam Countians Saturday will go to the polls to decide whether this county is to have a new jail and remodeled courthouse.

One of the propositions has been brought about by the needs of a jail, built about 1890, and site of numerous jailbreaks, and having interior prisoner facilities as old as the jail. The proposal is for \$150,000, of which \$120,000 is for a new building, a site, yet undetermined.

Main consideration for the proposed remodeling of the courthouse is need for much space in basement record storage areas of the county clerk's office and the county tax assessor-collector office, second-floor district clerk's office and third-floor 20th District jurors quarters.

Anyone visiting the records storage of the county clerk's office or the jury quarters on the third floor know of the needs at, comparatively speaking, the top and bottom of the courthouse.

It would have been possible to start from scratch, but the courthouse proposal for \$500,000 (estimated actual cost \$407,670) will mean, in effect,

a new exterior, adequate storage in 11-000 additional square feet and modern facilities for 25 years to come. The possibility of a brand new courthouse, tearing down the present one, evidently was dismissed as prohibitive in cost.

The jailbreaks are not news. It is difficult to imagine what can be done with mortar in brick that is dried with 75 years of age and which at one time has been scraped through with a spoon handle.

Milam County is without bonded indebtedness. And official estimates of the cost for the two proposals are figured at 21 cents per \$1,000 actual valuation.

Both buildings are about 75 years old. The Courthouse had \$12,000 county money spent on it in 1939, little more annually since except for sandblasting the exterior in 1961, improving the district courtroom and some hallway painting.

These basic considerations should be reviewed before the historic vote Sat., August 7, at the 38 precincts in Milam County. And these basic needs invite your support for a remodeled courthouse and brand new jail.

Gov's Political Future Talked

AUSTIN

Gov. John Connally's future plans are the talk of the capital. On his decision hinges the political future of many Democratic candidates for numerous federal and state offices.

No one in his party wants to run against the popular Democratic party leader and vote-getter, but there is talk of his possible retirement. This would change the complexion of many races in 1966.

Connally has indicated that he will make his plans known before the General Election in November. This in order that other state political figures, whose moves depend on his, can set their own sails.

In the latter category are Lt. Gov. Preston Smith and Atty. Gen. Waggoner Carr. Both want to run for governor.

A race by Smith and Carr for the higher office naturally would place their own jobs up for grabs—and plenty of candidates would file for these posts.

Connally says that neither the four-year-term amendment, which will be voted on November 2, nor the possibility of a federal appointment will play a part in his decision whether or not to retire.

Other speculation is that he may run for the US Senate next year against the incumbent, Republican Sen. John Tower. There also is talk that, regardless of Connally's decision, US Senator Ralph Yarborough may enter the Governor's race next year. He could do this without relinquishing his present post.

So goes the talk in the state capital where speculation always runs high.

NOT SO BAD

Dr. James Schless, director of the state's TB hospital system, isn't claiming perfection. But he doesn't think the number of persons leaving the hospital against medical advice is alarming.

"We don't bat a thousand," said Schless, "but a layman looking at the figures could easily get the wrong impression."

Figures he referred to reveal that out of the 2,914 persons who left the state's TB hospital's last year, 601 of them left without medical advice.

Dr. Schless lays most of those 601 were non-contagious. They were cured and they are not a menace to public health. But they left before receiving the 18-24 months of treatment necessary to give them a 98-per-cent chance of never having TB again.

Those who leave before getting past the contagious stage usually are returned quickly by health authorities. After "going over the hill," such patients usually are quarantined.

ORANGE POLLUTION

State Water Pollution Control Board has asked officials of the City of Orange to try again to get voter approval of a bond issue to provide funds for correcting the city's pollution of the Sabine River.

Orange voters recently turned down a \$3,000,000 bond issue by a mere 29 votes. It would have corrected the city's sewer troubles. Mayor Neil Miller Jr. admits that the city's sewer system is polluting the river at six points within the city limits. He said the city must re-submit the matter to the voters.

TEXAS TOURISM GETS BOOST

A Texas movie entitled "TEXAS—Land of Contrasts" soon will be available for showing before civic groups throughout Texas and the nation.

It is a professional job produced entirely within the Texas Highway Department, except for the guest commentator. Its estimated value is \$70,000. But the department self-produced it for \$9,500.

OLD PHILOSOPHER

Philosopher Says Evidence Shows You

Don't Have To Be Handsome To Get Elected

Dear editor:

According to a serious article I read last night in a newspaper a neighbor had used to wrap up some vegetables he brought me, Sir Alec Douglas-Home has resigned as leader of Britain's Tory party because his television image is so bad he loses more votes than he makes every time he shows up on the screen.

They tried everything, changing the lights, photographing him from this angle and that, teaching him how to smile, how to tell a joke, what a joke was, etc., but it wouldn't work. When his face showed up on television, he just didn't look like a leader, so he resigned in favor of a man who photographs better.

Now according to a news analyst, what this proves is that from now on no homely-looking man can ever get elected, that unless a man shows up good on television, he might as well stay out of politics. Maybe try banking.

Right away though I'd like to say that I have never considered bankers and homies - looking than anybody else and if it'll help sing a loan I'll say they're handsomer than everybody knows they are.

But about having to have a certain-style face to get elected, I don't know about that. I have seen some Congressmen on television that would explode this theory, although it's possible they got in before television was invented. Or that whoever they were running against looked less like leaders than they, which stretches the imagination pretty far, at least further than mine will go.

I don't like to argue with an expert, but there may have been some other factor in Sir Alec's failure on British television. Maybe he said something wasn't as important as what he said, although I don't know anything about British politics. I don't know anything about American political figures, but having seen lots of Senators and congressmen and Governors on news programs, I'd

was the Texas Press Association. TPA scheduled the film for its 15th Annual Advertising Convention in Galveston on September 11. Bob Warner, former newspaperman now a Highway Department information officer, will handle the Galveston presentation.

say that the theory that you have to be handsome and leader-looking on television to get elected is apple sauce. Most of em look about like the rest of us.

Yours faithfully,
J. A.

Dear Sir:

I wonder if any of your readers might be able to help me with a bit of family research.

My father's uncle, Stephen T. Coleman, lived in Milam County in the late 1800's; it is our understanding that he died near Milam in 1896. His wife, Ann Dean Coleman, died in Milam County in 1906. We understand they had sons named Meredith, Robert and Harvey.

We would greatly appreciate hearing from anyone who knows of the whereabouts of any of the descendants.

Thank you very much for any assistance you might lend.

Very truly yours,

TAKE YOUR PROBLEMS TO CHURCH THIS WEEK

Millions Leave Them There!

LEARNING CONTENTMENT

Little girls like to "play house" or to dress in the clothing of grown-ups. This instinctive liking can be turned to good use when teaching your daughter, in an interesting fashion, how to keep house. She will be grateful when she reaches womanhood for this instruction and for having been taught the secret of living contentedly and getting along with other people. Above all she will be grateful for having been endowed by her parents with understanding of religious faith, which is the foundation of contented living.

With the film conviction, established through early teaching at home and at church, that God will see her through whatever trials or tribulations come her way, a serene and contented life will be hers. Her church and training will prove to be never failing allies.

THE FAMILY LAWYER

What You Can Insure

Suppose you notice that a neighbor's children like to play with matches in their garage. If you are the dastardly type, a cunning idea might occur to you. Why not take out a fire insurance policy on that garage, wait for a fire, and then pocket the proceeds?

The catch is, you could not collect a cent on such a policy. For you have no "insurable interest" in the garage.

Generally speaking, you cannot take out insurance on another person's property—or another person's life, either—unless you do have an insurable interest. The law says you must have something at stake, some motive for wanting that property—or that life—to be preserved.

That wasn't always so. In the early days of modern insurance, at Lloyd's famous coffee house in London, anyone could take out life insurance on anyone else. Lives of prominent persons became speculative free-for-alls. An inside tip about some dignitary's failing health could be turned into easy money.

But twin evils became apparent: the stimulus to gambling, and the incentive to murder. Such insurance, wrote Oliver Wendell Holmes, "is a pure wager that gives the insured a sinister in-

terest in having the life come to an end." The law responded with the requirement of an insurable interest.

What constitutes an insurable interest? The usual test in financial—whether you would suffer financial harm if the insured property was damaged or the insured life lost.

Thus, if you had a mortgage on that neighbor's garage, you would have the necessary insurable interest. The destruction of the garage would destroy something of value to you.

Similarly, in life insurance, a man has an insurable interest in his wife because she owes him services. And a wife has an insurable interest in her husband because he owes her support.

Even when the financial interest is not so clear, a clear sentimental interest will sometimes satisfy the courts. For instance, they usually uphold an insurance policy that a girl, engaged to be married, takes out on the life of her fiancé.

"The relation," explained one court, "naturally inclines her to the hope that his life may be prolonged."

49th Armored Division Writer Reports Tanks Are For Tigers

(Editor's Note: A Dallas News staff writer, on two weeks active duty with the National Guard's 49th Armored Division, took his first ride in a tank during a tactical field problem. Here is a report on his ride and the men who have to live and sweat in the tanks, much like Cameron's unit of Company C, 3d Battalion, 112th Armor.)

By Eddie S. Hughes

NORTH FT. HOOD
One tiger in the tank is enough, you say?

Not in the 49th Armored Division. They need four "tigers" in every tank—the dare-devil driver, the loader, the gritty gunner and the tank commander, on whose dusty shoulders rest the tank crew's success. But no matter what the job is, if you're a tank-er, you've got to be tough, tough and able to take hard knocks. Especially the hard knocks.

It was no Sunday afternoon picnic drive that Company A, 5th Battalion of the 112th Armor, a tank unit of the 49th bases in Athens, took recently during its two weeks of training at this vast armor post. It was more like being in a runaway gasoline truck on a busy freeway during rush-hour traffic. It was hair-raising.

"Alpha" Company was assigned a tactical mission along with other units of the 5th Battalion, headquartered in Corsicana, which called for engaging the Aggressor and capturing an airfield. On the map, it looked deceptively simple: Follow the creek bed, staying in close to brushy areas for cover, then racing into the wide open in full speed in a wedge formation.

It turned out to be rougher than it looked on that flat map.

A tank crew is one of the tightest-knit families you'll find in the U. S. Army. They work, eat and sleep together almost elbow to elbow, simply because these are just not that much room in a tank.

When the time came to move out, the tank crews raced to their camouflaged positions. Tanks—despite their awkward size—were surprisingly "lost" either in the bushes or lying low in a dry creek bed. Growing engines rumbled into a roar, and Company A was ready for action.

Sgt. 1st Class Charles L. Har-

grove of Athens, a cigar-chewing tank commander who is a quiet guy until he climbs aboard his machine, bellowed instructions as he took his place in the cubicle atop the turret.

Peeking halfway out through the hatch on the turret top, the view was splendid. Just about tree branch high, it was on several occasions near suicide to stick your head out above the safe confines of the turret while the tank bulldozed its way through brush.

It didn't take long to realize that nothing much can stop a tank. An occasional gully, a clump of cedar trees, a hillside of rock—all were easy prey for the fearsome 50-ton war monster that reared like a beast looking for a fight.

In its wrath, trees split in two. Creek beds only served as an added thrill to the tank driver, and a rough ride for all, as some of Ft. Hood's most rugged countryside became a mere playground to the awesome armored steamroller.

Yet, despite the tank's cumbersome appearance, it glided surprisingly smoothly over some of the roughest spots. It was something like riding in a Cadillac along an unimproved country backroad.

Action developed when Sgt. Hargrove, sitting high from his cubicle, spotted an Aggressor tank 500 yards away. His tank came to a screeching halt. As the tank commander gave the coordinates, the gunner whirled the 90mm gun into position.

"Fire! Ordered the tank commander. "On her way," shouted the gunner from inside the tank compartment. The big gun belched her projectile like a serpent spitting fire. The blast barely rocked the tank. "Let's go," said the commander.

Again, over hill and valley, through heck and high creekbeds, the tank rumbled on toward its objective.

In the meantime, the tight fighting compartment inside the tank was filled with smoke from the firing. Sweat poured from the brow of the gunner and loader. But neither was complaining. "The heat gets us excited," said Sgt. Davis, as he put in another round.

For the next hour, the tanks ruled the earth. Nothing was stopping them—nothing, that is, until the voice of Capt. Harold Rhodes, the Company Commander, barked over the radio: "Mission accomplished. Let's go home."

Ear drums shattered ribs rubbed raw from the constant bouncing, eyes filled with sweat and dust, the tank crew had proved one thing:

Tanks are for tigers—and not sissy cats. Grrrr.

Keep Hooks From Rusting

Rust ruins hooks quickly—especially when stored for the winter. You can prevent this erosion if you will take the time to wash and dry each hook, then dip it in rubber cement.

When ready to use, merely rub off the cement coating and your hook will be bright, shiny and sharp.

Legal Notice—

CITATION

THE STATE OF TEXAS:

TO: Jewel Page and Etta Jean Page, their legal representatives, and the unknown heirs of the said named defendant, greeting:

You are hereby commanded to appear before the honorable District Court of Milam County, Texas, at the Courthouse thereof in Cameron, Texas, by filing a written answer at or before 10 o'clock a.m. on the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 20th day of September 1965, to plaintiff's petition filed in said court on the 26th day of July, 1965, in this cause numbered 15539 on the docket of said Court and styled Mutual Savings Institution, plaintiff, vs Jewel Page, et ux, defendants.

A brief statement of the nature of this suit is as follows:

A trespass to try title suit in which plaintiff for cause of action would respectfully show the Court the following, to-wit: That for a period of more than five years before the commencement of this suit, plaintiff was lawfully seized and possessed of the following described land and premises situated in Milam County, Texas, holding and claiming the same in fee simple, to-wit:

All that certain lot and parcel of land lying and being situated in the City of Rockdale, Milam County, Texas, and being a part of Block 129 of said City and more fully described as follows:

Beginning at the N. E. corner of said lot in the West line of Rice Avenue; Thence westerly 80 feet along the north line to the N. W. corner of this; Thence southerly parallel with the west line of Rice Avenue 50 feet to the south-west corner of this; Thence easterly parallel with the first line hereof, 80 feet to the southeast corner of this, in the west line of Rice Avenue; Thence northerly

along the west line of Rice Avenue 50 feet to the place of beginning and being a lot 50 x 80 feet in size out of the northeast corner of the said lot.

That defendants unlawfully entered upon said premises and ejected plaintiff therefrom and unlawfully withheld from it the possession thereof to its damage. Plaintiff prays for judgment for title and possession of said land and other and further relief to which it is entitled as is more fully shown by the plaintiff's petition on file in this suit.

If this citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law and of mandates hereof and make due return as the law directs.

Issued and given under my hand and seal of said office at Cameron, Milam County, Texas, this 2nd day of August 1, 1965. Signed: Grady Allen, District Clerk, Milam County, Texas.

THE HERALD'S FAMILY CORNER

IT'S A LIVING -- by Al Johns

Nola Knows

By Nola White

nola knows
Dear Nola - I am a 200 pound man with an appetite. Suddenly my wife has gone diet-crazy and watches every bite I put in my mouth. I am an active man and am all bone and muscle. This lettuce bit is ruining my happy home. Don't you think this diet stuff is a racket?

Starving
Dear Starving - Some of it certainly is a racket, but there's also a sound basis for concern about

overweight. Your wife is probably more interested in keeping you alive than starving you to death.

The two of you should visit the family doctor for a scientific, well-balanced diet. And you should spend those extra years you live thanking her for loving you enough to make you take care of yourself.

Pushing Forty
Dear Nola - Should I tell the man I'm going to marry how old I am? I'm actually nearly ten years older than he thinks I am.

Pushing Forty
Dear Pushing - He's bound to find out sooner or later that you're older than you pretend, and he'll hate you for deceiving him. Getting old is one thing you just can't hide forever. You'll feel better if you tell him the truth. If he still wants to marry you, your chances for happiness will be enhanced by not having a dreaded secret between you.

Dear Nola - My friend's husband is going with a married woman. He has always run around, but this seems serious. It's common talk. Should I tell my friend about it, or not?

Bystander
Dear Bystander - If you want to see your friend deeply hurt, tell her. But if you like her enough to spare her pain, don't. These things always "seem serious" but usually aren't. If this is common

SELF ANALYSIS QUIZ

How Strong Is Your Personal Pride?

By Jane Sherrod Singer

For generations, poets and philosophers have warned against the dangers of pride with such admonitions as "Pride goeth before a fall." Psychiatrists now know that one must have pride to maintain his or her self-respect. There is a vast difference between having pride and being prideful, the first being defined properly as "a due sense of one's own worth." How would you answer the following questions?

	YES	NO
1. Are your hands as well groomed as they should be, considering the tasks they are required to do?	()	()
2. Can you do several things which are praised by others?	()	()
3. Do you maintain your living quarters neatly?	()	()
4. Are you happy to introduce your friends to your other friends?	()	()
5. Have you studied the culture of your country sufficiently so you know both its strengths and weaknesses?	()	()
6. Do you feel that your religion is a contribution to your life?	()	()
7. Do you have relatives whom you admire?	()	()
8. When people ask, are you pleased to discuss with them the work you are doing?	()	()
9. Does laughter come easily to you?	()	()
10. Have you ever made "something" out of "nothing"?	()	()

DESIRABLE ANSWERS:

All should be YES. Questions 1, 2, 9 and 10 are directed at the real YOU. Question 3 relates to your concern with your home, the frame in which you live. Questions 4, 5, 6, 7, and 8 round you out as a human being.

SCORING:

Give yourself two points for YES answers to 1, 2, 9, and 10. One point for each YES answer to the rest.

12 to 14: You have justifiable pride in yourself, your work, your background and your environment. Now be sure to ask yourself if you are egotistically prideful.

8 to 12: There may be some gaps in your own self-esteem. "Observe thyself as thy greatest enemy would do, so shalt thy be thy greatest friend." (Jeremy Taylor)

4 to 7: It is very likely that you need a personality safety-valve. Start by finding some means of self-expression. Find one thing that you can do well AND DO IT!!!

0 to 4: This is a score, we do not believe. According to psychological studies, you would not have taken the time to take the quiz unless you have enough pride to find out how you rate!

talk, your friend may already know about it. If she doesn't, she's better off. You'll be doing yourself a favor if you stay out of it.

Dear Nola - What can I do with a wife who does just the opposite of everything I say?

Dear Pete - Say just the opposite of what you mean!

Fish Like Candy, Too
Take along a bag of gum drops on your next fishing trip. Not only will you enjoy snacking on them, but you might use a few as fish bait.

Bass and catfish are both fond of gum drops. Simply cut one in half and use on hook as bait. If gum drops are of the small variety, use them whole for baiting.
